## FROZEN AT SEA COD

If you are looking for top quality Cod at the most competitive prices, our Frozen At Sea range has your needs covered. The cod is cleaned, gutted, filleted and frozen at sea enabling us to deliver the freshest quality to your door.

Frozen At Sea Cod helps you offer a consistent product all year round. Freezing so quickly after capture helps retain the nutrients in the fish, and ensure a really fresh taste. We stock a variety of sizes from 5/8 to 32+\*, skin-on, skinless, bone in, boneless – whatever your preference, you'll find it at N & B.

### DELIVERED

We stock a range of Frozen-at-Sea Cod, shown below, landed by some of the best known trawlers operating in Northern Europe, including some of the best known brands:

	5/8oz	8/16oz	16/32oz	32oz+
SKIN ON COD	✓ 3x6.81kg	✓ 3x6.81kg	✓ 3x6.81kg	On Request

SKINLESS BONELESS	On Request	On Request	✓ 3x9.07kg	On Request

Individually Quick Frozen (IQF) fish fillets are processed a short time after the catch has been landed. The fish are cleaned, graded and filleted then glazed with a protective water glaze prior to freezing. This helps stop the fillets from drying out. They are then frozen individually using liquid nitrogen which stops the fillets sticking together when they are packed.

The advantages of IQF fish are that they can be used individually, meaning every portion is consistent and reducing waste. The fillets retain their freshness, delivering great flavour and all the nutritional goodness of freshly caught fish.

*Indian cooking is dependent on the quality and freshness of the herbs and spices used. The grinding process releases aromatic oils from the spices which create the delicious flavours you can taste in Indian cuisine.*

*Spices deteriorate very quickly so Patak's uses the freshest spices. We put them into our products before they lose the key essential oils that provide all the flavour. These spices are then combined with other ingredients, such as chillies and coriander leaves, to create a delicate blend that gives each dish its unique taste.*

Established in England in 1957, Patak's has grown to be a household brand name in the UK – with products used by professional chefs and home cooks across the world. Patak's is now served in many of Britain's 9,000 Indian restaurants.

It cuts through grease, dirt and grime effortlessly, removing baked on deposits without the need for scrubbing and scraping. What's more, you can even use it when the oven is still warm unlike most other cleaners.
